Dr. Gordon Crozier

Dr. Gordon Crozier is a leading physician and educator in the area of integrative medical treatments and services.

He is the Medical Director of the Excellent Living Medical Center, where he also practices medicine. A board certified physician in the State of Florida, Dr. Crozier graduated from Des Moines University & College of Osteopathic Medicine and Surgery in 1994 as a Doctorate of Osteopathy.

After serving his internship and residency in Obstetrics and Gynecology at the Michigan State University Garden City Hospital Campus, he practiced in the areas of neurology, neurosurgery, hormone replacement, and women’s health.

Today, Dr. Crozier is recognized as a leader in the research and application of integrative medicine. Patients from around the world seek his medical advice and treatments for conditions and disorders including tick-borne diseases, chronic fatigue, parasitic infections, mold and other toxicities, and more recently autism and ADD-ADHD.

For Dr. Crozier, the goal is to help patients find health and healing by dealing with the ROOT of the problem and not just symptoms. In addition to his own medical practice, Dr. Crozier lectures worldwide and is sought-out for advice by patients around the world.
Dr. “JJ” Jean-Jacques Dugoua

Dr. “JJ” Jean-Jacques Dugoua HBSc ND PhD, is a clinical pharmacologist, public speaker, researcher, and Naturopathic Doctor (ND) with a Doctorate (PhD) in pharmacy science.

Dr. JJ is the Chief Medical Officer of the Liberty Clinic in downtown Toronto and the first ND to practice at the Toronto Western Hospital in the Artist Health Center, one of the few NDs practicing in a hospital in Canada.

He does research with the Motherisk Program at Sick Kids Hospital in Toronto where he heads the MotherNature Network. He is an Assistant Professor with the Leslie Dan Faculty of Pharmacy at the University of Toronto.

Dr. JJ is a co-author of “Herbal Medicines in Pregnancy and Lactation – An Evidence-based Approach First Edition” and contributing author to “Clinical Pharmacology During Pregnancy” and “Diabetes: An old disease, new insight”. He has published many peer-reviewed scientific publications in the medical literature. He is also an avid public speaker.

He has given many presentations to pharmacists, medical professionals, government, academics, artists and musicians, students, teachers, cancer survivors and the general public. He has also given presentations internationally, including presentations at the World Health Organization (WHO) in Washington DC.
